Volodymyr Khreptak

.NET Developer

@vtchs villaclara1231@gmail.com https://villaclara.github.io

Summary

C# / .NET Software Engineer focused on developing scalable web and desktop applications. Eager to bring a rigorous approach to software quality, technical troubleshooting, and collaborative development to a forward-thinking engineering team.

Skills

Frameworks: .Net (ASP.NET Core, WPF), Angular, Blazor, Unity
Data: SQL Server, PostgreSQL, Entity Framework
Architecture&Patterns: SOLID, Clean Architecture, N-layer, MVVM, and RESTful APIs.
Tools: Git, Github, JIRA.

Experience

Recent projects (all available as repos on my github page):

BabyEST - Developed a web app to help parents track their toddler's sleep and eating schedules as they grow.
Tech used: ASP.NET Core Minimal API with Cookie-based Authentication, Angular SPA frontend with PWA, mobile-first UI using CSS + Bootstrap, PostgreSQL/SQLite (With Entity Framework ORM) as database.

Mybad (https://mybad.top) - developed web app tool for players of DOTA 2 game.
Tech used: Minimal Api Backend following RESTful priciples. Angular as frontend with using Tailwidcss styling with mobile-first design. Postgres database alongside EF Core ORM.

Fullstack Developer Internship at EPAM (Feb 2026 - Jun 2026)
- studied .NET fundamentals with focus on advanced C# concepts and backend development
- worked closely with a mentor to improve software engineering and development practices
- developed ASP.NET Core project with mentor guidance
- learned Angular fundamentals and frontend integration

QA at Gameloft (Dec 2018 - present)
QA at Disney Dreamlight Valley project
- created and executed test cases; performed manual testing across platforms
- reported results and used internal tools (including CRM) to manage workflows
QA Lead
- team managment, delegating tasks, providing reports on project status
- collaborating with development teams to ensure high-quality software delivery

Education

NU Lviv Polytechnic (2017 - 2018)
Master of Project Management

Ternopil Ivan Puluj National Technical University (2013 - 2017)
Bachelor of Software Engineering
